

## **ACADEMIES AUSTRALASIA / UBIQUITY**

### ***ACADEMIC PARTNERSHIP***

Ubiquity University is very pleased to have signed an agreement with Academies Australasia to provide online courses, certificates, and degrees to all students attending AA schools. Here is how it works:

If you are a student in one of the AA schools and you are working toward a vocational certificate or diploma, you are eligible to participate in Ubiquity University's online courses, which will provide you with skills and perspectives that will significantly enhance your learning and preparation for the professional world you are about to enter. Each course can be taken on its own or you can bundle three courses into a certificate. Certificates are important because you can add them to your portfolio to show to prospective employers.

You may want to go to Ubiquity and take our courses toward a BA degree. This is what we call our BA CAPSTONE PROGRAM. This allows you to work on two degrees simultaneously – the one from the local school you are attending and a BA degree in Social Innovation and Entrepreneurship from Ubiquity. Ubiquity will accept all your courses completed at your local institution as credit toward a BA degree. If you have completed two years of study (Level 5), for example, you would have to take 20 additional Ubiquity courses. If you have completed three years of study (Level 6), you would have to take 10 additional Ubiquity courses. You are also eligible to apply for our MBA and doctoral programs.

What is particularly compelling about taking Ubiquity courses is that each course is divided into three parts – Academic Study, Self Mastery exercises, and Impact Projects which train you to become a social entrepreneur. Academic Study increases your knowledge. Self Mastery exercises nurture your character and emotional intelligence. Impact Projects develop your innovation and entrepreneurship skills.

The Impact Projects are particularly important. As you progress on your projects, you will receive mentoring and, if your project is particularly promising, Ubiquity will provide working capital to support you. We have a partnership with a UK company called Fundsurfer that will provide training and support in developing crowdfunding for promising projects. Just imagine going to a university and receiving money to bring your passion into the world. That is at the core of Ubiquity's mission for education. We invest in our students.

Ubiquity University is seeking to provide the Liberal Arts core competencies that you need to successfully navigate a world of increasing complexity. It is important that you have vocational training. This provides you with professional competencies. It is equally important that you learn leadership, critical thinking, innovation, creativity, and entrepreneurship. This provides you with skills that will enhance your professional qualifications and give added meaning to your life.

Ubiquity University is accredited with the Accreditation Association of International Schools, Colleges and Universities (ASIC) based in the UK.
